

## Practice — Spherical Mirrors

Section A is interactive — tap an option or type and press Check. Sections B and C are written practice.

### Objective (1 mark each)

---

**Q1 · MCQ****[1]**

A mirror whose reflecting surface curves **inward** is —

- (a) convex (b) concave (c) plane (d) flat

**Q2 · MCQ****[1]**

A convex mirror always forms an image that is —

- (a) enlarged and inverted (b) erect and diminished (c) same size (d) inverted and large

**Q3 · MCQ****[1]**

The reflector of a torch is a —

- (a) convex mirror (b) plane mirror (c) concave mirror (d) concave lens

**Q4 · MCQ****[1]**

Convex mirrors are used at sharp road bends because they —

- (a) magnify vehicles (b) give a wide, erect view (c) invert the image (d) burn paper

**Q5 · ASSERTION-REASON****[1]**

**A:** Side-view mirrors warn 'objects are closer than they appear'.

**R:** A convex mirror forms a diminished image, making objects look farther.

- (a) Both true, R explains A (b) Both true, R does not explain A (c) A true, R false  
(d) A false, R true

**Q6 · FILL IN THE BLANK**

**[1]**

A \_\_\_\_\_ mirror gives an enlarged, erect image of a tooth held close to it.

\_\_\_\_\_

**Q7 · FILL IN THE BLANK**

**[1]**

A plane mirror always forms an image of the \_\_\_\_\_ size as the object.

\_\_\_\_\_

### Short answer (2 marks each)

---

**Q8**

**[2]**

Differentiate between a concave and a convex mirror by their shape and the image of a distant object.

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

**Q9**

**[2]**

Give two uses each of concave and convex mirrors.

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

**Q10**

**[2]**

How is the image in a spherical mirror different from that in a plane mirror?

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

### Long / application (3 marks each)

---

Q11

[3]

Meena sees herself enlarged in one curved mirror and tiny in another. Identify each mirror and explain the images.

---

---

---

---

Q12

[3]

Suggest the suitable mirror for: (i) a car headlight (ii) a security mirror in a shop (iii) a make-up/shaving mirror. Justify each.
